Ready to change your business? get ready to go electric.

The 100% electric Nissan e-NV200 is already leading the way in electric commercial vehicles and it now packs an even bigger punch with the new 40kWh battery delivering up to an additional 60% of range. e-NV200 now plays host to the same battery technology as the award winning new Nissan LEAF giving your business all the benefits of this exciting technology in an incredibly innovative vehicle. Driving 100% electric pays off right from the start; with drastically lower running costs and zero emissions* your business will make significant savings whilst taking on an environmentally conscious and sustainable new direction.

TAKE THE WHOLE CREW

e-NV200 Combi has room for everyone. Across the range, it can seat between 2 and 7 passengers comfortably and still has room for cargo and luggage.

LOAD UP WITH EASE

e-NV200's cargo area can fit up to two Euro pallets and despite the increased battery capacity, there is no reduction in payload. As well, with a load height of 52cm, loading up is a breeze.

SET IT UP YOUR WAY

The rear cargo space is functional and versatile, with flat walls for easily installing upfitter racks and bins, the e-NV200 can really adapt to your needs and preferences.

*zero- emissions whilst driving

4 DRIVING MODES TO MAXIMIZE YOUR RANGE.

D mode allows for maximum EV performance, it is best suited for motorway driving and lets you enjoy all of the EV performance. Eco mode gives you extra driving range by automatically adjusting the acceleration response and the climate control. B mode will increase the strength of regenerative braking to increase the driving range. B & Eco Mode combines the smooth acceleration of Eco mode with the regeneration braking of B Mode to save up to 30% energy and provide maximum driving range.

DRIVING RANGE
124 MILES COMBINED CYCLE
187 MILES CITY CYCLE

(WLTP HOMOLOGATION)

**RAPID
CHARGE**

**WALL
BOX**

**DOMESTIC
CHARGE**

Work with the power and range of the 40kWh battery.

When you start the day with a full charge, you will have a driving range of 124 to 187 miles (combined to city WLTP cycles), giving you plenty of charge for all of your drop-offs, pickups, appointments and deliveries. Nissan e-NV200 offers you 3 charging modes*: you can charge up to 80 % in about 40 to 60 minutes with the quick charge port, or fully charge in about 7.5 hours with a wall box using the 6.6kW on-board charger or in about 21.5 hours with an EVSE cable using a regular plug socket at home or at the workplace. With its regenerative braking system, the e-NV200 is engineered to help you get the most out of every charge by sending power back to your battery any time you coast, decelerate or brake.

* Time dependent on charging conditions, including Charger type and condition, battery size as well as ambient & battery temperature at point of use. Ambient temperature may also affect the driving range of the vehicle.

CREATING NEW BUSINESS OPPORTUNITIES

Because the e-NV200 is a zero emission* vehicle with no engine noise, you can quietly make night time deliveries in residential areas and use it indoors and in protected areas. No more noise and driving emissions for your customers and your working environment.

*zero- emissions whilst driving

SAVINGS & BENEFITS**

Lower your costs.
Boost your efficiency.

Imagine never having to spend money on petrol, oil changes or transmission services. That's what happens when you go 100% electric with the e-NV200. As well as saving money with incredibly low running costs, you save time. You can charge at home or at your workplace, so you may never need to stop at a petrol station again and there is far less vehicle downtime and maintenance. As well, your cost-efficient vehicle is incredibly quiet and clean so you can make night time residential deliveries and access protected and indoor areas without causing any disturbance. Finally, a vehicle for your business that opens new business opportunities.

A better drive, a better workday.

From the sensation of quietly and smoothly driving along to the incredible driving benefits, there is nothing quite like driving electric. The 40kWh e-NV200 is cleverly designed with the driver's needs in mind. It has plenty of leg room and high, truck-like seating giving greater visibility and helping to reduce fatigue. All that with the comfort of an automatic gearbox that increases driving pleasure and with agile handling (thanks to a low centre of gravity and 15" wheels), instant EV torque for quick and smooth acceleration and a tight turning radius for easy manoeuvrability, the e-NV200 may just become your best team member on the job.

Class-leading driver leg room = more comfort

Truck-like seating = greater visibility
Heated seat* = more comfort

Battery distribution = low centre of gravity

Rear View Monitor* makes tight parking spots more inviting. This feature shows you a view of the area behind you and superimposes guidelines to help you position the e-NV200 exactly where you want it.

The **e-NV200** has an incredibly tight 11.1 m turning diameter that helps you negotiate narrow streets and tight parking lots, while pulling up as close as possible for loading and deliveries.

11.1 M

A mobile office that goes where you go.

e-NV200 offers an unexpected level of equipment. The interior design draws inspiration from drivers who need to get work done on the go. The cockpit doubles as an easy-to-use workspace, with large-range adjustable seating and versatile storage. NissanConnect features navigation, hands-free calling and text messaging, and Bluetooth streaming audio, who needs any other office?

Cargo capacity meets versatility for a perfect fit.

The e-NV200 is designed to meet a variety of needs. Choose from 2 models (Van or Combi), both with a versatile interior that allows you to configure racks, bins and seating to custom-fit your needs. Plus, it's easy to load, thanks to a low 524 mm rear load height.

Two standard
Euro pallets fit
with room to
spare.

INCREDIBLE
CARGO AREA
4.2 m³
Cargo capacity

2.8m - space for a long ladder (with optional folding mesh partition wall)

1.22 m between
wheel arches
1.50 m wall-to-wall
1.36 m stand-up room

Take the whole team on board with the full 7-seater version: the e-NV200 Combi is designed for growth.

Flat wheel wells make for easier cargo stacking.

6 floor-mounted D-ring tie-downs are rated to 500kg.

CARGO AREA
1.9 m³
IN THE 5 SEATER COMBI

Even with 5 people on board, the e-NV200 Combi still has enough place for cargo.

NISSAN SERVICE PLANS

For total peace of mind and budget control, you can subscribe to a Nissan Service Plan which will cover your periodic maintenance for the mileage and period that suits your business best. This way, you can ensure that your new e-NV200 is serviced by dedicated Nissan technicians.

AT NISSAN, YOU BRING OUT THE BEST IN US.

You spark our imagination. You provoke our ingenuity. You inspire us to change the rules and innovate. And at Nissan, innovation is not just about additions and extensions; it's about crossing the line to reinvent the status quo. It's about developing unexpected solutions to satisfy your wildest and most pragmatic desires. At Nissan, we design cars, accessories and services that break the mould - making the practical exciting and the exciting practical to offer you a more exhilarating driving experience everyday.

NISSAN e-NV200 OFFERS YOU:

For complete peace of mind, when using your vehicle, e-NV200 is covered by warranty up to 5 year / 60,000 Miles for mechanical and electric components, with Nissan Assistance included.

Contact your dealer and consult the warranty booklet for more details.

12 year anti-corrosion warranty.

Nissan e-NV200 lithium battery warranty also protects against capacity loss below 9 bars of capacity (out of 12) for a period of 8 years / 100,000 miles.

*Body parts and paint excluded during year 4 and year 5. Terms and exclusions apply accordingly. For further information, Please see Extended warranty terms and conditions at <https://www.nissan.co.uk/ownership/nissan-car-warranties.html>.
